# PERFORATING PRESS

Volume 3

Quality Perforating, Inc.

Issue 10

The standard terms used in our shipping process.  
*Sometimes one word can change the entire meaning...*

I think you  
misunderstood  
me.

I said  
I'd like to  
seal the deal.

This issue of The Perforating Press will review “the standard terms” used in our shipping process.

The same word used by the buyer and seller may have two entirely different meanings. Even though both parties are working together, the definition and understanding of a word or term may lead to a misunderstanding. In an effort to build communions between organizations we have posted a few standard terms we both can use to help expedite and simplify the shipping process.

*(click on the image above to see these terms)*

QPI has taken a leading roll in the industry to provide advancements in packaging and shipping. We have listened to our customers terms and definitions as to the safest and most efficient manor to get the product to them.

Thanks again for all your help and support.
